

COURSE OUTLINE

ACOMBA NEXT GENERATION

ACOMBA
Keeping good company

For whom?

Associate partner developers

Objective

To deepen your knowledge of the new Acomba platform and familiarize you with Web service business logic. Training will enhance your connection with the new Acomba, enabling you to build on that connection and apply your learning in your work with clients.

Equipment and Software Required

Participants must bring their own computers for the practical portion of the training session. The free software indicated below must be installed and functional on participants' computers.

- Visual Studio 2010 Express
- SQL Server 2008 Express

The following must also be installed on participants' computers: the developer version of the new Acomba, and a test program to enable qualification of the environment for training.

If you encounter any problems, please contact the technical support desk at 1 800 862-5922 to ensure that everything is functional before training begins.

Schedule

8:00 - 9:00: Verification of environment compliance

9:00 - 12:00: Training
